NDVR CLIENT APP FOR iPhone DEVICES

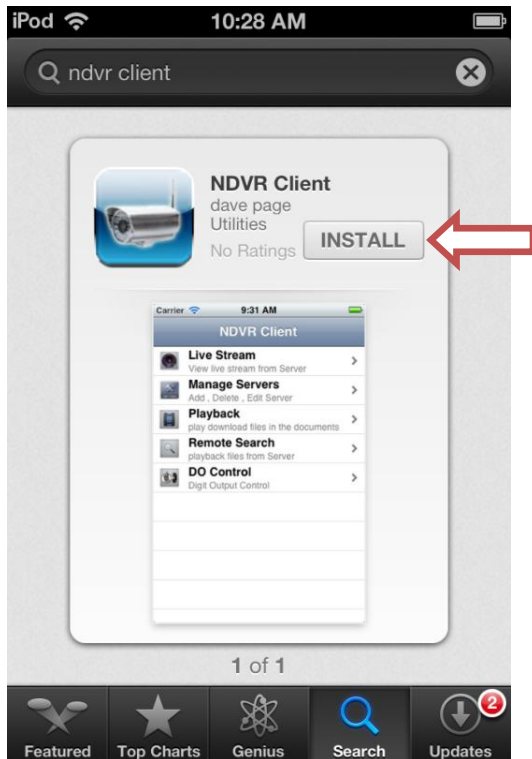

Customers who wish to view PC based DVRs on line through their iPhone mobile device must follow these instructions step by step.

Downloading the app:

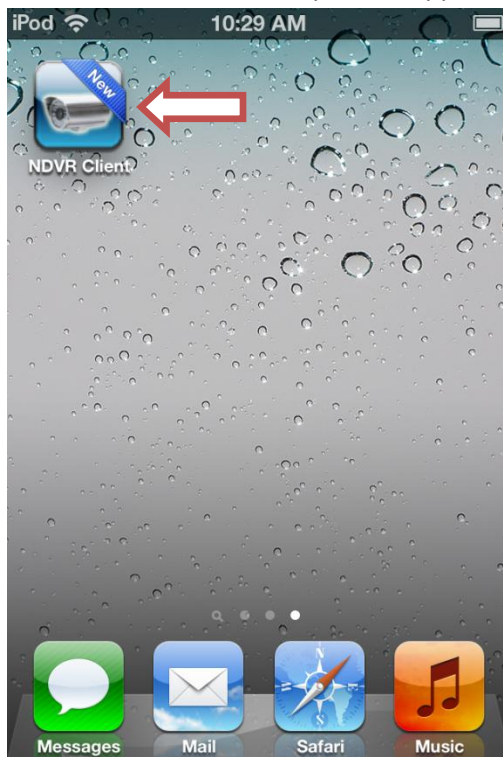

1. Go to App Store on your device; in the search bar type in **NDVR Client**, and press search.

2. You will see a search result page like the one below. Click the **install** icon.

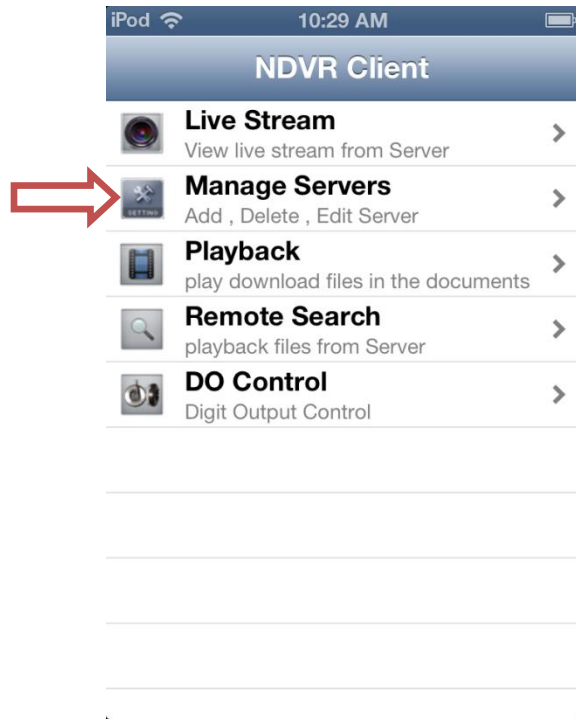

3. After the application is installed, go to the app screen on your iPhone and look for the NDVR Client icon. Click on it to open the app.

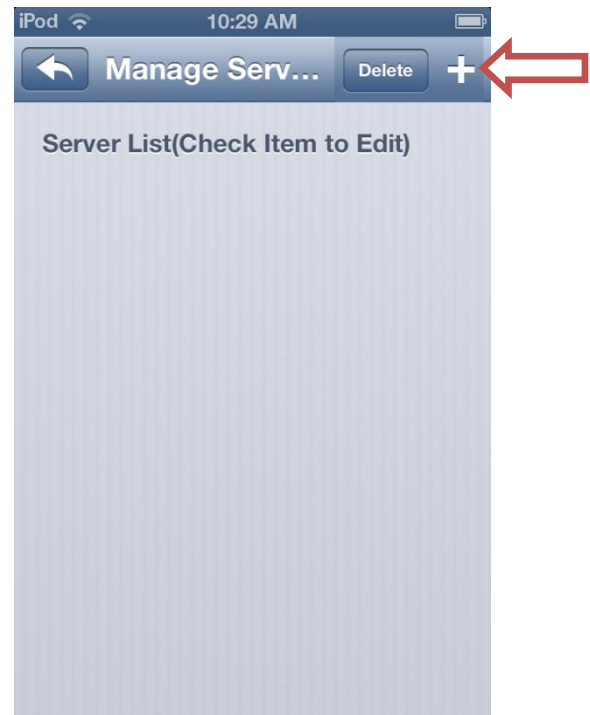

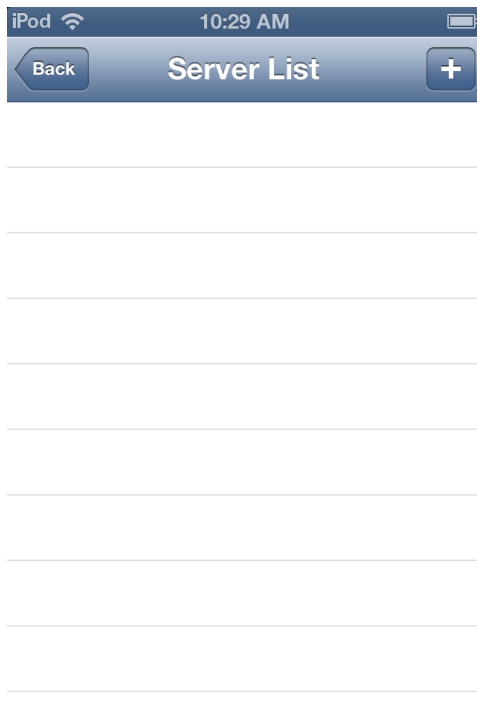

Establishing Connection:

4. After the app opens, click on **Manage Servers**.

5. On the next screen click on the + (plus) sign. Click on the + (plus) sign again on the screen following that to add a new server.

6. Enter the server information on the fields shown then click **Save**.
(if you wish to add multiple DVRs you can do so repeating the previous steps)

iPod 10:30 AM

← New Server Save

Server's Type

Hybrid NDVR IP Device

eg. Hybrid NDVR or Embedded DVR/IPC

Server's Name

<enter text>

eg. 120

Address

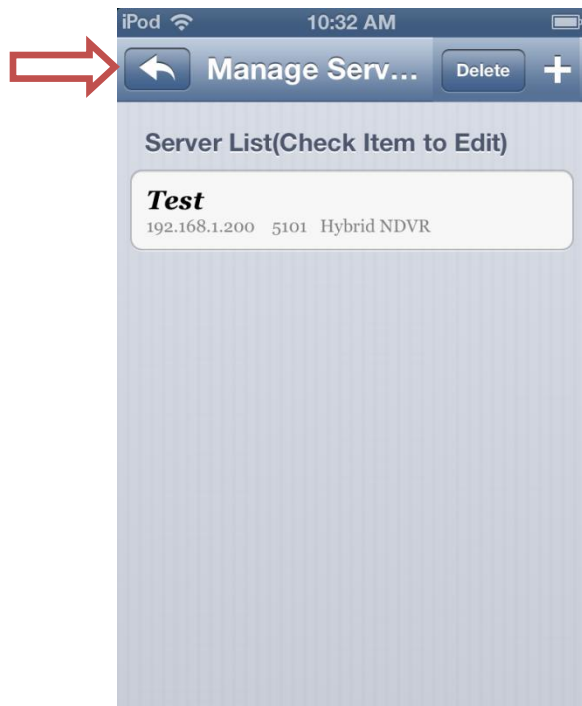

<enter text>

eg. 192.168.0.120

Port

<enter num.>

7. After the server information is saved, click on the back button to go back to a list of DVRs added.

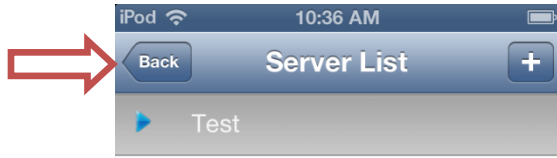

iPod 10:32 AM

← Manage Serv... Delete +

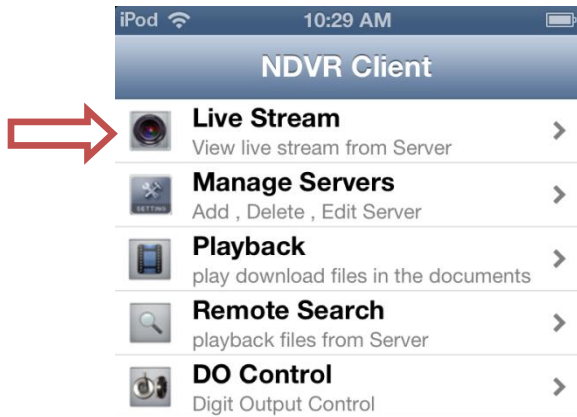

Server List(Check Item to Edit)

Test
192.168.1.200 5101 Hybrid NDVR

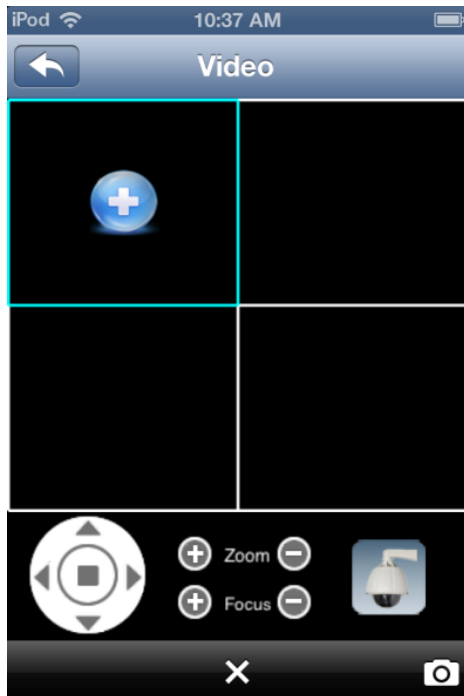

8. Click on the back button to go back to the main menu.

9. Click on **Live Stream**.

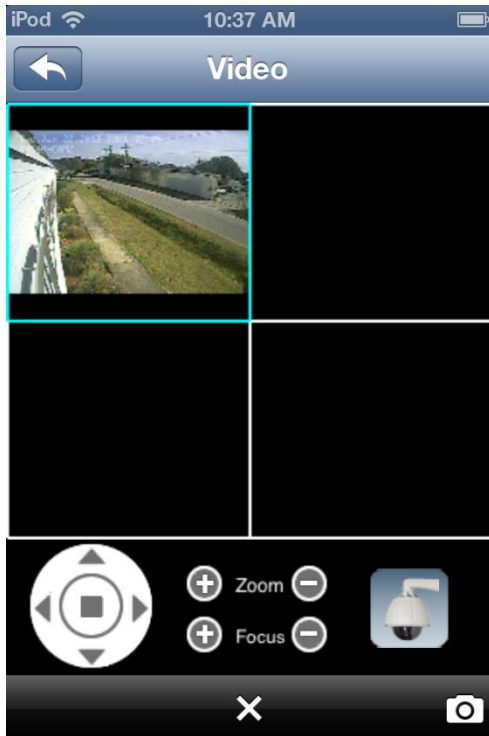

10. Click on the+ (plus) sign to see a list of DVRs available to view.

11. Click on the down arrow next to the DVR name to expand the list of cameras available. Click on the camera you wish to see.

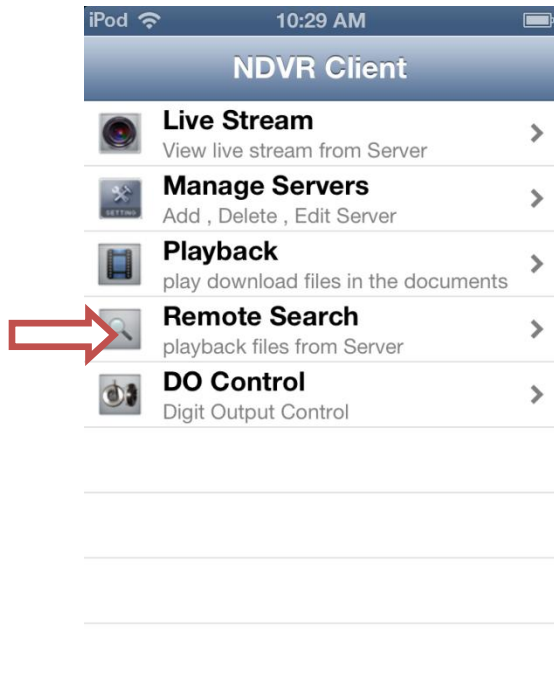

12. You now can see the selected camera. You can select multiple cameras to be viewed at the same time by repeating the previous three steps using the available squares on the screen.

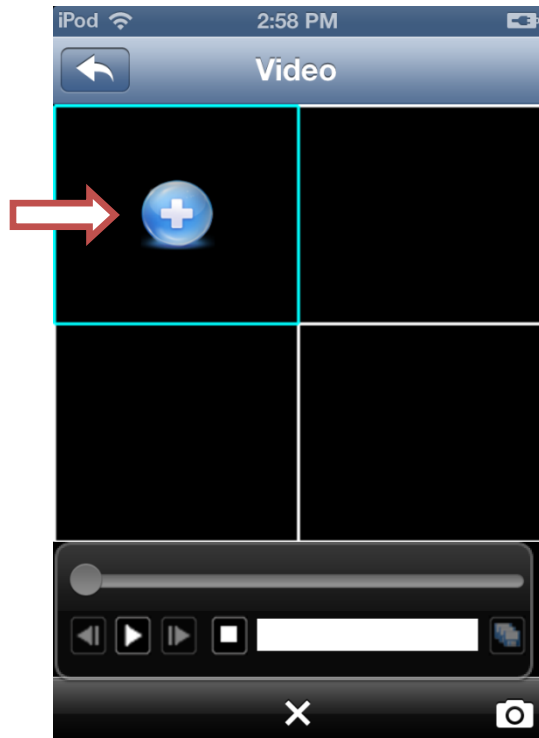

Playback Recordings:

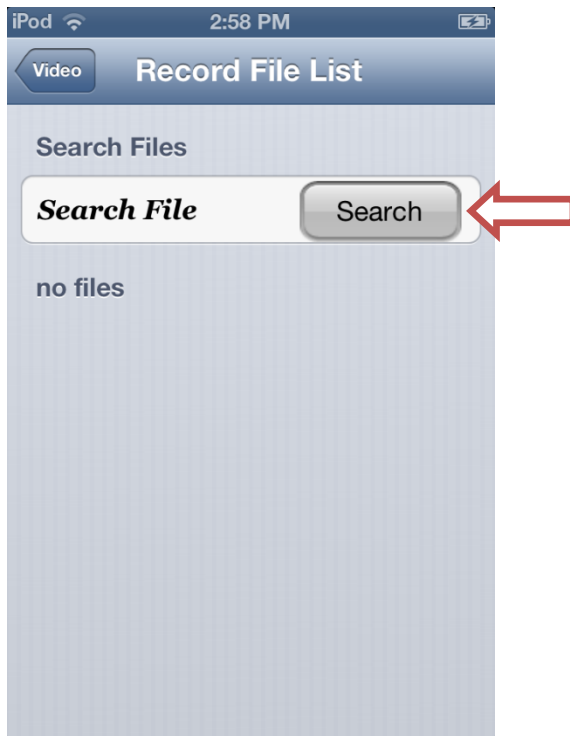

13. Click on **Remote Search**

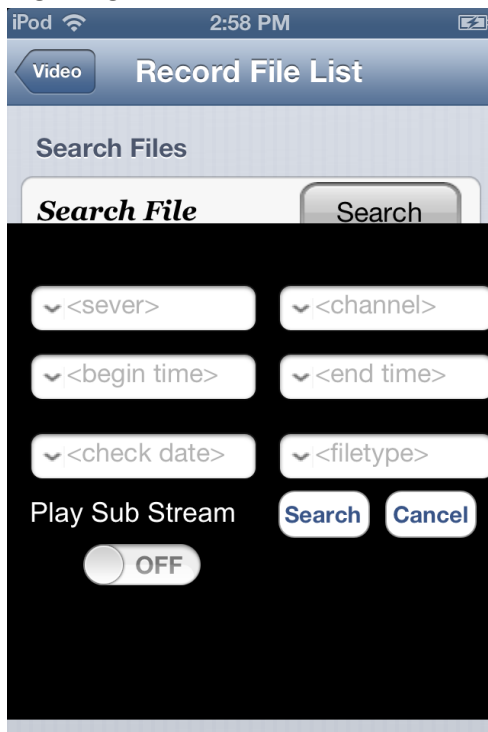

14. Click on the + (plus) icon

15. Click on Search

16. Select the DVR you want to search, select the channel (camera number), and select the beginning date/time and end date/time. Click *Search*.

17. The system will search for recordings in within the time period you selected. Click on the file you want to play it back.
